

Size Considerations

- This table provides the maximum shade size available by fabric, control type, and valance style
- Cassette valance and contour valance are options for continuous-loop lift, cordless lift, and smart pull lift
- Scallops decrease the maximum height by 6¾" on roller fabrics only
- If your shade size is larger than the maximum width, your fabric may be able to be turned width for height for larger shades
- Use the fabric turned width for height table to determine this maximum size

Minimum Shade Size

For all fabrics and lift options:

Minimum shade width and height: 13"

Continuous-Loop Lift: Maximum Shade Size

Due to continuous manufacturing improvements, minimums and maximums are subject to change. Please call customer service for up-to-date size considerations.

Seams may be added to fabrics to accommodate long shade requirements. See shade features charts for a list of fabrics that can be seamed. Seams are placed as close to the tube as possible; seam location is not selectable. They are visible when the shade is fully extended. This is not available for cordless lift or smart pull lift shades.

Cordless Lift and Smart Pull Lift: Maximum Shade Size

- This table provides the maximum shade size available by fabric, control type, and valance style

- Fabric turned width for height (Railroaded) may curl along its edge; this is not a defect in the product
- Scallops will decrease the maximum height by 6¾" on roller fabrics only
